STEP 1 *Print* this eye test chart. Make sure "Fit to Page" is off. The page should print at actual size. Do not test vision on screen. To make sure this test is accurate, the chart below should be 5 inches wide.

STEP 2 *With your glasses off*, read the lines of copy in the chart below from a distance of about 14 inches.

STEP 3 The first line you have difficulty reading corresponds to the lens strength that is best suited for you.

Printed diagram should be 5" wide.

Ultra-flexible bridge.	+2.75	HIGH RANGE
Instant vision on the go.	+2.50	
Reading glasses in an instant.	+2.25	
NEVER forget your reading glasses again.	+2.00	MID-HIGH RANGE
Full-sized lenses available in four strengths.	+1.75	LOW-MID RANGE
Ultra-thin phone case protects your smartphone.	+1.50
